A Terrible Dose.

Yesterday afternoon Jack Furlong got hold of some hydroxyl monohydride in a bottle, and mistaking it for gin, drank half a tumbler full before he discovered his error. In a few minutes he felt a queer sensation in his stomach, and realizing what he had done started for Dr. Guinnans. Before reaching the next room however he fell to the floor. His wife got the Doctor, and the stuff was removed from his stomach by the aid of a stomach pump. In a few hours he was resting easily, and it is believed that the prompt action of the stomach pump saved his life. The stuff was in liquid form, and being absolutely colorless, the mistake was natural one. The dose he took, however, gave him a close shave, and it will be he wants for some time to come. A proper label should be put on such drugs when kept in a private house.

COAST NEWS.

Business men at Eureka held a large meeting yesterday to urge prompt action in completing the Nicaragua canal.

A man claiming himself Albert Leach has been arrested at San Bernardino, in the belief that he is A. A. Austin, wanted in Minnesota for murder.

Andy Blessington, a well-known sport, and who was dubbed the "Mark Twain's 'Roughing It'" as the "Sack Gambler," died at San Jose yesterday.

The Gurney cab drivers at Vancouver, B. C., are on a strike. The men claim that exorbitant charges are made for the cabs, which they hire, and they make no profit.

There is a strong American colony at Fresno, and the members closed their doors yesterday as a mark of sympathy for their persecuted brethren in Asiatic Turkey.

Incendiaries, burglars, robbers of horses and dogs and writers of anonymous letters which are vile in tenor, have been and are making life decidedly unpleasant for residents of San Rafael and Ross Valley.

Thomas Peck, the eight-year old son of Engineer Thomas H. Peck, was run over Tuesday at Los Angeles by an engine on which his son handled the throttle and received injuries which resulted in his death. The engine was being used for switching purposes, and the boy, who had been jumping on and off, lost his balance and fell across the track. The engine passed over his body, crushing it into a shapeless mass.

It is said that in one of the Japanese war songs, sentences like the following are seen: "Human life lasts but fifty years; who would wish to purchase a few miserable years of life at the cost of dishonor? March and fire as long as breach remains." It seems there is a poet on the general army staff of Japan, who composes these songs as emergencies require.

This reminds one of a story told by the writer by a man who claimed to have been present at the incident.

The Confederates were charging on the earthworks and were three times repulsed with a deadly fire. A Confederate officer rallied his men for another charge with these words.

"Come on you sons of—do you want to live forever?"

Dr. Parkhurst puts his case rather graphically when he remarks that nothing Tommy Hall isn't going into politics any more than firing cobble stones at any other gang of bandits or driving off a flock of ravens from a roof.

Turkey Shoot and Thanks giving Ball.

The Gubernatorial proclamation that Thanksgiving will be whacked up this year does not complete the idea without the announcement that Admirable Wiggins of Empire will have a turkey shooting and masquerade ball on Thanksgiving. The turkeys will be fat and juicy and stand still to be shot at, and the ball will be up to the usual standard of those festive events in Empire. There will be chicken shooting with shot guns and all kinds of true red old Thanksgiving sports with hilarity in the evening that makes life a jolly living in the seaport town.

Minstrel Show.

Some of Virginia City's most talented young people will repeat in the Carson Opera House, the evening of Monday, Nov. 26th, their出色 performance, which was given recently in their city. All who were present at the entertainment pronounced it a decided success, and equal to any professional performance of the kind. The people of Carson and vicinity that want furniture repaired should try Mr. Meyers a first class upholsterer who will make your mattresses and lounges ever as good as new. Kitzmeyer has tendered him his workshop who will guarantee that his work will be good and charges satisfactory. Electricity From Heat.

The Reno Journal claims that a man named Robinson of Reno has discovered a way to evolve electricity from heat in so thorough a manner that every house can be supplied with incandescent lamps as cheaply as they are now supplied with kerosene. The inventor also contemplates the running of locomotives by the same method. It is a very wonderful discovery, if it has indeed been made.

Vansickle Improving.

Henry Vansickle who was severely injured by a runaway team is reported as gradually improving and will be around again in a few weeks. Van is as tough as oak but is a very bad man to own with only two horses and a wagon.
